SUMMARY

I am a Full Stack Web Developer and Virtual Assistant currently building web applications using Ruby on Rails, React, Redux, JavaScript, and webpack.

I am excited about the opportunity to work remotely with tech companies and I am proud of the steps I am taking to achieve this. I'd love a chance to contribute to the growth and success of every company I work for.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3

Back-End: Ruby, Rails, MySQL, PostgreSQL

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring, Communication skills, Problem-solving skills, Creative thinking skills

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Development Student & Mentor

Remote
March 2022 – Present

I am mastering intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

Food Recipe App – Web application for adding and removing the scores.

- Built with: (Ruby, Rails, PostgreSQL, devise-jwt)
- [Food Recipe App](#)

Leader Board App – Web application for managing a budget. It's user-friendly and fun for users to categorize their budgets.

- Built with: (Html, CSS, and Javascript)
- [Leader Board](#)

Covid-19 Statistics App – Web application that displays metric data from an API for covid-19 cases in different countries.

- Built with: (JavaScript, React, and Redux)
- [Covid-19 Statistics App](#)

Book Store App – Simple web application which allows users to add books and remove books. It uses the API to post and get the books and display them in the user interface.

Built with: (JavaScript, Css3, React, Redux, and API end-Points)

- [Book Store](#)

Tech Conference Website – Website designed for a Tech Conference in Ghana.

- Built with: (HTML, CSS, and JavaScript)
- [Tech Conference Website](#)

MICROVERSE

Mentor (Volunteer)

Remote
May 2022 – Present

- Mentoring junior web developers, and providing technical support through code reviews.
- Providing advice and tips on maintaining motivation and longevity in the program.

EDUCATION

MICROVERSE

March 2022 – October 2022

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
